## One Tablet for Comprehensive Joint Support

*Healthy joints are vital to your overall health. They become especially important as we age. In addition to age, poor diet and overuse can underscore the importance of joint health maintenance.*

*EverFlex benefits the structural system and supports healthy joints. It offers the nutritional advantages of glucosamine, chondroitin and MSM combined with devil's claw herb in one convenient tablet.*

### **BENEFITS**

- Promotes joint health and normal function.
- Helps lubricate joints.
- May increase shock absorption in the joints.
- Enhances flexibility.

### **HOW IT WORKS**

Studies suggest that glucosamine protects connective tissues and helps maintain the integrity and mobility of joints. **Glucosamine** also helps lubricate joints by replenishing synovial fluid, which promotes a joint's shock-absorbing qualities.

**Chondroitin** sulfate attracts fluid and draws nutrients into the cartilage, making the cartilage more shock absorbent. It also promotes growth and normal tissue generation and keeps enzymes in balance.

**Methylsulfonylmethane (MSM)** is present in many fresh foods, but it is destroyed through cooking, processing and storage. Supplementing with this nutrient ensures an adequate supply of sulfur. Sulfur is an important structural component of the connective tissue that joins muscle to bone.

EverFlex also contains **devil's claw**, an herb long used to support joint health and to maintain comfort.

### **NSP ADVANTAGE**

EverFlex combines four joint-enhancing nutrients into one effective formula that costs 30 percent less than purchasing glucosamine, chondroitin and MSM separately. Plus you get devil's claw for FREE!

### **INGREDIENTS**

Two tablets provide 800 mg glucosamine, 200 mg chondroitin, 800 mg MSM and 100 mg devil's claw root.

### **RECOMMENDED USE**

Take 2 tablets with a meal twice daily.

### **COMPLEMENTARY PRODUCTS**
